

FAQ Summer Program

Application Process

Who can apply ?

This program is entirely designed for international students being at least in their third year of higher education in programs related to AgroParisTech's activities and having a B2 level in English.

What should I do if I didn't receive the email to confirm my registration ?

It is possible that you received the email in your junk folder; did you check that folder? If you did not receive it at all, you might have to try with another email address. Once you complete your registration, log in on the platform and fill the application form.

English is my first language; what should I put on the English Proficiency section ?

If English is your first language, you must put a document (a Word document for example) in which you explain that you are a native speaker.

If I have special needs or a disability how should I inform you ?

On your application form you will find a section where you can inform us of the arrangements you are usually provided with.

Can I choose my internship lab?

Yes. You can express your lab preferences during the application process. We will do our best to match you with a lab that aligns with your academic background and interests. Please note, however, that spots are limited, and final placement depends on the supervisor's decision.

After submission

When will I be notified about the outcome of my application ?

You will be notified of the outcome of the internship application by mid-April whether or not your application is successful.

If I am admitted, do I need a visa to participate ?

Visa requirements depend on your nationality. Nationals of other countries should consult the [France-Visas](#) website to determine if a visa is required. If you are accepted in the program you will receive an admission letter.

What will happen if my visa application is denied ?

In the case of visa refusal, there is no fee if you cancel 3 weeks before the start of the program. From 2 weeks before until the start date, fees will be charged.

Last update : March 2026

Contact: summerprogram@agroparistech.fr

How can I prepare for the internship?

Once matched with a lab, you will receive information about your supervisor and what is expected from you in order to fulfill successfully the internship requirements. We recommend reaching out to your supervisor in advance.

Fees and Refund

What's included in the Standard vs. Premium Package?

The Standard Package (2,000€) covers courses, internships, cultural visits, and local support.

The Premium Package (4,000€) includes all Standard Package benefits plus accommodation, transport to/from Orléans/Reims if required, and local transportation.

Not included in any package: travel, health and liability insurance, daily meals if not specified and administrative costs (passport, visa, etc.).

Are there any scholarships available for economically weaker students?

There are no scholarships available for this program, but there is a 20% discount for students coming from partner universities. You can check that by contacting the international relations office of your university.

What are the cancellation fees for your program?

Cancellation fees depend on both the timing of the cancellation and the reason. You will receive a digital copy of the terms and conditions once you are accepted.

What payment methods are accepted?

Payments can be made either by credit/debit card or by bank transfer. Further payment instructions will be provided after acceptance into the program.

Accommodation

Will accommodation be provided during the program?

Accommodation depends on the package you choose and the location of your internship.

- If you select the Premium Package, accommodation in a student residence is included. Whether you are placed in Paris, Orléans, or Reims, you will have a private room and bathroom, and kitchen facilities are available in all accommodations.
- If you choose the Standard Package, accommodation is not included, but we can provide recommendations in advance.

Can I access AgroParisTech facilities ?

Yes, you will be able to access the facilities with a badge to enter campus and your lab. You will have further information in the Welcome Guide.

ECTS Credits & Certification

How do I earn ECTS credits?

You will earn up to 6 ECTS credits (1 for French classes, 5 for the internship) upon successful completion of the program. You will be evaluated on the base of an ongoing assessment and a final oral presentation.

How is the French language immersion organized ?

You will have French classes twice a week, and you will work in multilingual teams, in which you will be able to practice every day. Plus, cultural activities organised during the first and last weeks will allow you to discover French culture at its finest.

After the program completion

Does the program offer support for pursuing further studies or a PhD at AgroParisTech?

No. If you are interested in pursuing a degree in AgroParisTech, you can check all the information you need on our [website](#). Keep in mind that participating in our Summer Program does not guarantee your admission into one of our academic programs (master, engineering or PhD).

When will I receive the attendance certificate and the transcript of records ?

On the last day of the Summer Program, you will receive an attendance certificate. Then, you will receive by email your transcript of records with the number of ECTS credits awarded upon successful completion of the program.
